## Client Site Multi-document Download

## **STEP 1**

B

D)

- A. Click My Documents
- **B.** Select the category of document you are looking for. Note: Only Statements, Trade Confirmations, Tax Documents, and CRM2 are available for multiselect download. Manage account statements will be available soon.
- **C.** To select and download all documents from a category, click **All**. To unselect all documents, click None.
- **D.** To select individual documents, click the checkbox on the left of the desired document.
- E. Click Download Selected in the panel that appears. The panel shows the number of documents selected.

**Note:** Each document type (Statements, Trade Confirmations, Tax Documents) will have its own download panel.

	CLOSE		

**Note:** You can start file downloads on one device and view/process the download on other devices. Downloads are only available for 24 hours after completing the download process. After a file is saved to your local device it is removed from the list of files available for download. Download failures will produce a text file (.txt) within the ZIP file which identifies the error.

## Desktop Site V.S. Mobile Site

On the desktop version of the site, up to 100 documents are saved in ZIP files accessible in the Downloads folder on your local drive. Selections exceeding 100 documents will be broken up into multiple ZIP files. The naming convention for the compressed files is <document type>.zip.
